Position: Systems Engineer

International Systems Management Corp. (ISM) is seeking qualified individuals to provide **Systems Engineering Support** to the US Navy Rolling Airframe Missile Program Office in the Washington, D.C. area. The selected individuals will provide subject matter expertise in the areas of systems engineering technical review coordination, execution, and documentation; design artifact review and comment; strategic planning, and project management. Applicants must have a Bachelor Degree in an Engineering, Math or Science Discipline; ten (10) years of professional experience in engineering projects; proficiency with Microsoft Office Products; strong communication skills (oral and written); and ability to work independently.

Required experience or qualifications for applicants include:

- Conducting technical analyses and developing technical reports/position papers on proposed system improvements, design changes, and total ownership cost reduction initiatives.
- Implementation and management of systems engineering processes including systems engineering technical reviews.
- Ability to review and evaluate system technical documentation including system test plans and engineering change proposals.
- Development and maintenance of a Systems Engineering Plan.
- Strategic planning to include establishing future development requirements, initiating a baseline project, and the Program Objective Memorandum (POM) process.

Desired experience or qualifications for applicants include:

- Supporting engineering or program management tasks for NAVSEA PEOs.
- USN ship combat system integration requirements for missile programs.
- Missile flight testing requirements and execution.
- Developing tactical software for weapon or combat systems.
- International Cooperative Programs and Memorandum of Understanding (MOU) requirements as well as Foreign Military Sales.
- Program Protection, Cyber Security and Information Assurance (IA).

The ideal candidate is dynamic and proactive in meeting customer needs and has the ability to prioritize tasks and coordinate activities across numerous projects. The position will be located in Washington, DC and will require travel, including international travel, approximately 15% of the time. Applicant must be a U.S. Citizen and be able to obtain and maintain a DoD Security Clearance.

ISM is a growing small business providing exceptional technical and program management services to the Department of Defense (DoD). ISM employees are experienced professionals that work well independently, or as part of a large government-industry team.

ISM offers competitive salaries and a comprehensive benefits package. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin. Interested individuals should email resumes to resumes@ism-hq.com or fax to 240-331-3091. Visit us at www.ism-hq.com.
