MANAGEMENT CORP**

6301 Ivy Lane • Suite 601 • Greenbelt, MD 20770-6310 • 301-220-0700 • Fax 240-331-3091

Position: Program Protection, Security and Information Assurance (IA) Lead Engineer

International Systems Management Corp. (ISM) is seeking qualified candidates for **Program Protection, Security and Information Assurance (IA) Lead Engineer** support to the US Navy. The selected individual will provide subject matter expertise in the areas of Information Assurance (IA) and recommendations for system certification and accreditation in accordance with DoD Information Security Certification and Accreditation Process (DITSCAP). Applicant must have a Bachelor Degree in an Engineering, Math or Science Discipline; ten (10) years of professional experience in engineering projects with a minimum of five (5) years in a supervisory role; proficiency with Microsoft Office Products; strong communication skills (oral and written); and ability to work independently.

Required experience includes:

- Assessing and developing recommendations for proposed system improvements, design changes, and total ownership cost reduction initiatives.
- Defining system requirements, developing Plans of Action and Milestones, and developing and managing technical databases.

Desired experience includes:

- Providing information, advice and recommendations for process improvement, facilitation, strategic planning and program management support pertaining to Program Protection, Security and Information
- Coordinating and supporting technical review of security certification and accreditation documentation, procedures, change and proposals, processes and security directives.
- Participating in Security interchanges with Department of Defense (DoD), National Security Agency (NSA), Defense Security Service (DSS) and other agencies.
- Providing information, advice and recommendations for system certification and accreditation in accordance with DoD Information Security Certification and Accreditation Process (DITSCAP) and any other applicable security accreditation guidelines, for the changes to current and newly developed hardware.

The position will be located in Washington, DC and require travel approximately 10% of the time. Applicant must be a U.S. Citizen and be able to obtain and maintain a DoD Security Clearance.

ISM is a growing small business providing exceptional technical and program management services to the Department of Defense (DoD). ISM employees are experienced professionals that work well independently, or as part of a large government-industry team.

ISM offers competitive salaries and a comprehensive benefits package. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin. Interested individuals should email resumes to resumes@ism-hq.com or fax to 240-331-3091. Visit us at www.ism-hq.com.
