## LITTORAL COMBAT SHIP COMBAT SYSTEM DEVELOPMENT ENGINEER

International Systems Management Corp. (ISM) is seeking a qualified individual for a full-time position providing systems engineering and program management support to the Program Executive Office for Integrated Warfare Systems Littoral Combat Ship and Fast Frigate Combat Systems (PEO IWS 8). This position, the **Littoral Combat Ship (LCS) Combat System Development Engineer**, will support PEO IWS 8 on projects associated with LCS and Fast Frigate Combat Systems.

The LCS Combat System Engineer will be responsible for subject matter expertise in systems engineering and program management that support the Development, Integration, Certification, Ship Integration and Test, and Fielding of the LCS Combat System. The LCS Development Engineer will work in a project development environment with government and industry combat system and ship integration engineers and program managers.

Desired experience:

- Executing Combat System baseline management, development, modeling and simulation, development test tools, certification, ship integration, and ship test.
- Supporting programs following DoD 5000.1 Acquisition Milestones
- Developing Plans of Action and Milestones and managing technical databases
- Supporting AEGIS Common Source Library and/or SSDS Single Source Library, and associated development and testing processes including Agile Development Framework
- Supporting US Navy Technical Review Process
- Supporting contract Statement of Work development, Basis of Estimate review, and Technical Advisory Report development

The applicant must have the following minimum experience and/or qualifications:

- Bachelor's degree in an Engineering, Math or Science Discipline
- DoD security clearance or ability to obtain DoD security clearance
- Proficient in Microsoft Excel, Word, PowerPoint and Outlook
- Strong communication skills (oral and written) and ability to work independently and with a team of diverse engineers and acquisition professionals

The ideal candidate is dynamic and proactive in meeting customer needs and has the ability to prioritize tasks and coordinate activities across numerous organizations. The position will be located in Washington, DC and will require travel approximately less than 10% of the time.

ISM is a growing small business providing exceptional technical and program management services to the Department of Defense (DoD). ISM employees are experienced professionals that work well independently, or as part of a large government-industry team. The staff interacts at all levels of DoD and Industry and has a proven track record in achieving positive engineering and program management results.

ISM offers competitive salaries and a very comprehensive benefits package. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin. Interested individuals should email resumes to [resumes@ism-hq.com](mailto:resumes@ism-hq.com) or fax 240-331-3091.
